

AAC TRAINING THROUGH BDDS FAMILY & CAREGIVER TRAINING

What is this training?

Families and Caregivers learn how to better support both established and emerging AAC users, find resources to get started, and receive individualized guidance on integrating the device into daily living.

How is it funded?

Mainstay has partnered with Life Choice to provide this training through the CIH and FSW's Family & Caregiver Training service. A pick list will be signed for Life Choice and Case managers will receive invoices for monthly trainings provided.

Who is the trainer?

Shelley Anderson is a LAMP Certified Professional and Lingraphia Technology Specialist. She is currently studying to obtain her Assistive Technology Certificate.

Type of support

- Gaining initial information about AAC
- Obtaining an AAC Evaluation (which device is best)
- Assistance setting up current device
- Learning how to use/model on the device
- Support an advanced user and integrating into daily life
